CONTENTS

Preface ix

Curriculum Vitae xvii

Obituary to Prof. Friedrich Schreiber xxi

1 Organization of the Chair 1
- 1.1 Personnel . . . 1
- 1.2 Completions . . . 3
- 1.3 Funds from Third Parties . . . 5

2 Courses, Laboratories, and Examinations 7
- 2.1 Courses and Laboratories . . . 7
- 2.2 Lectures . . . 8
- 2.3 Student Examinations . . . 10

3 Research Overview 13
- 3.1 Research Fields of ComNets . . . 13
- 3.2 Overview of Current Activities . . . 15
  - 3.2.1 Structure of the Research Group . . . 19
  - 3.2.2 Output . . . 19
  - 3.2.3 Computer Equipment . . . 19
- 3.3 Research Supporting Organizations . . . 19

4 Current Research Topics 21
- 4.1 Cellular Radio Networks . . . 21
  - 4.1.1 UMTS Performance Evaluation with GOOSE/SAMO 21
  - 4.1.2 Evaluation of Random Access Mechanisms for Packet Data in UMTS . . . 24
  - 4.1.3 Performance of coexisting UMTS Networks . . . 27
  - 4.1.4 Dynamic Channel Allocation in UMTS . . . 30
  - 4.1.5 COMCAR - Communication and Mobility by Cellular Advanced Radio . . . 33

4.1.6 DRiVE 36
4.1.7 Dimensioning Methods for GPRS Networks 39
4.1.8 Position Location in GSM and UTRA based on Pattern Recognition 42
4.2 Personal Communications 46
4.2.1 Integration of Voice over IP Services into a Java-based Communication Management and Unified Messaging System 46
4.2.2 Development and Performance Evaluation of Mobile Commerce Applications and Services 49
4.2.3 Advanced Service Provisioning based on Mobile Agents 53
4.3 Dedicated Short-Range Communications 60
4.3.1 DELTA 60
4.3.2 Standardization of Interoperable Road Tolling Systems 62
4.3.3 Evaluation of vehicle localisation methods using different communication systems 67
4.3.4 A1 – Interoperability of European EFC Systems based on DSRC 68
4.4 Network Design 71
4.4.1 Dynamic Network Design 71
4.5 Satellite Communications 75
4.5.1 Call Admission Control Strategies for LEO Mobile Satellite Systems 75
4.5.2 Application of HSCSD Based Model in LEO Satellite Systems 78
4.5.3 Migration Steps Towards New Generation Systems Integrating Terrestrial and Satellite Networks 82
4.5.4 COST 255 – Radiowave Propagation Modelling for New SatCom Services at Ku-band and above 86
4.5.5 IST VIRTUOUS Project – Integration of GPRS, S-UMTS and T-UMTS 89
4.6 Wireless ATM 93
4.6.1 Broadband Cellular ATM Access 93
4.6.2 SAMBA – System for Advanced Mobile Broadband Applications 95
4.6.3 Adaptive Modulation in Wireless ATM Systems with Dynamic Channel Allocation 98

4.6.4 Security Architecture for a Cellular ATM Mobile Radio System . . . 102
4.7 Space Division Multiple Access - SDMA . . . 107
4.7.1 Space Division Multiple Access for Wireless Packet Networks . . . 107
4.7.2 Fast Collision Resolution with SDMA . . . 112
4.8 Wireless LAN . . . 116
4.8.1 HiperLAN/2 System Overview . . . 116
4.8.2 Analysis of the binary-exponential back-off algorithm 120
4.8.3 HiperLAN/2 Wireless Base Station Concept . . . 124
4.8.4 COVERAGE – Cellular OFDM Systems with Extension Points for Increased Transmission Range . . . 127
4.8.5 Performance evaluation of HiperLAN/2 in comparison to IEEE 802.11a . . . 130
4.8.6 Traffic Performance Analysis of HiperLAN/2 . . . 133
4.8.7 OFDM transmission system charcteristics . . . 136
4.8.8 Performance of HiperLAN/2 Radio Link Control . . 142
4.8.9 Simulation Environment for the IEEE 802.11 WLAN Systems . . . 144
4.8.10 A new Approach to System Performance Investigation in HIPERLAN/2 . . . 147
4.9 Ad-Hoc Networking . . . 151
4.9.1 Dynamic CC Selection to Provide Centralized Ad-Hoc Networking . . . 151
4.9.2 Central Controller Handover Procedure for Ad-Hoc Networks . . . 154
4.9.3 W-CHAMB – A Wireless Channel Oriented Adhoc Multihop Broadband Network . . . 157
4.9.4 Interconnect Concept . . . 161
4.10 Broadband Fixed Wireless Access Networks . . . 165
4.10.1 Channel Modeling for Wireless Local Loop Systems 165
4.10.2 The DSA++ Protocol for Broadband Fixed Wireless Access Networks . . . 169
4.10.3 Comparison of Dynamic and Fixed Channel Allocation in Broadband Packet Switched Fixed Wireless Access Networks . . . 172
4.10.4 TDMA vs. CDMA techniques for Broadband Fixed Wireless Access Networks at 28 GHz . . . 175

4.11 Powerline Communications 179
4.11.1 Channel Characteristics of the Powerline Communication Network 179
4.11.2 DLC Protocols for Powerline Communication Access Networks 181
4.12 Infrared Communications 185
4.12.1 Wireless Infrared Video Data Transmission 185
4.13 Trunked Mobile Radio 188
4.13.1 Maximum Number of Users Which Can Be Served by TETRA-Systems 188
4.13.2 Qualification of the European standards TETRA and TETRAPOL to fulfill the operational tactical requirements of the German Security Forces 191
4.13.3 TETRA(POL) Pilot Site Aachen 194
4.13.4 Spectrum and Infrastructure Requirements of a cellular TETRA Network in Germany 197
4.14 Spectrum Compatibility and Coexistence 200
4.14.1 Coexistence of HiperLAN/2 and IEEE 802.11a . . . 200
4.14.2 Fair Coexistence of DECT and PHS working in the same Frequency Band in FWA-Networks 203
4.14.3 Enhancement of Protocols for approved multi-system coexistence 207
4.15 Stochastic Simulation 211
4.15.1 The Objective Statistics of the Finite Continuous Distribution 211
4.15.2 MuSICS – a Rare Event Simulation Tool 213
4.16 Tools, Projects, and Info Systems 217
4.16.1 Design of a generic Protocol Stack for an Adaptive Terminal 217
4.16.2 Performance Analysis of Radio Communication Protocols Using Stochastic Automata Network Descriptions 221
4.16.3 Evaluation Process for different Network Concepts for the PMR-Field Trial in Aachen 224
4.16.4 Learning in Industrial-Like Projects 227
4.16.5 SPEETCL – SDL Performance Evaluation Tool Class Library 230
4.16.6 SDL2SPEETCL – An SDL to C++ code generator . 233

5 Conferences, Seminars, and Committees **237**
5.1 Conferences and Seminars 237
5.1.1 Awards 237
5.1.2 ComNets Contributions to Conferences 238
5.2 National and International Committees 240
5.3 Reviewer and Editor Activities 240
5.4 Scientific Co-operations 241
5.5 Academic Committees 241
5.6 Scientific Colloquia 242

6 Publications **243**
6.1 Ph. D. Theses 243
6.2 Diploma Theses 243
6.3 Student Project Theses 254
6.4 Publications August 1998 – May 2000 259
