Edited by

[M. Steppler](#)  
[H. Tüchel](#)

This documentation was type-set with LaTeX, using D.E. Knuth's Computer Modern fonts, and printed on a HP LaserJet 4 and is also available in [PostScript format \(1.6 MB\)](#).

- 
- [Contents](#)
  - [Preface](#)
    - ◆ [25 Years of Teletraffic Engineering at the Aachen University of Technology](#)
      - ◇ [The Period 1971-1990 \(Prof. Dr.-Ing. Friederich Schreiber\)](#)
        - [Investigation of Data Traffic.](#)
        - [Service Disciplines in Queueing Systems.](#)
        - [Analytical Tools for Teletraffic Engineering.](#)
        - [Stochastic Simulation.](#)
      - ◇ [The Period October 1990-July 1996 \(Prof. Dr.-Ing. Bernhard Walke\)](#)
  - [Curriculum Vitae](#)
  - [Organization of the Chair](#)
  - [Courses, Laboratories and Examinations](#)
    - ◆ [Overview](#)
    - ◆ [Lectures](#)
      - ◇ [Applied Computer Science](#)
      - ◇ [Communication Networks and Traffic Theory I](#)
      - ◇ [Communication Networks and Traffic Theory II](#)
      - ◇ [Laboratory in Communication Networks](#)
      - ◇ [Stochastic Simulation](#)
      - ◇ [Mobile Radio Networks](#)
      - ◇ [Switching Systems](#)
      - ◇ [Local Area Networks for Industrial Application](#)
    - ◆ [Overview of Students Examinations](#)

Research

- ◆ Research Fields of COMNETS
  - ◇ Basic Research
  - ◇ Application-Oriented Research
  - ◇ Overview of Current Activities at COMNETS
    - Structure of the COMNETS research group:
    - Output:
    - Computer equipment:
- ◆ Research Supporting Organizations
- ◆ Cellular Networks
  - ◇ Performance Evaluation of Intelligent Handover Algorithms for Cellular Mobile Communication Systems
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Packet Oriented Data Transmission in GSM
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Development of Protocols for Hierarchical Networks
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Multimedia Learning Environments
    - Objectives
    - Technical Approach
    - Key Results
- ◆ Channel and Transmission Models
  - ◇ Performance Analysis based on Stochastic Finite State Machines using Generative Radio Channel Models
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Transmission Models for Wide Range Usage
    - Objectives
    - Technical Approach
    - Results
- ◆ Personal Communications
  - ◇ Personalization and Cooperation of Services and Networks
    - A Scenario
    - Conclusion and Results
    - References
  - ◇ PSCS Architecture
    - Objectives
    - Technical Approach
    - Results
    - References

## ComNets Annual Report 1996

- ◇ PSCS Security Architecture and Implementation
  - Objectives
  - Technical Approach
  - Results
  - References
- ◇ PSCS Protocols and Information Flow
  - Objectives
  - Technical Approach
  - Results
  - References
- ◇ The Intelligent Communication Manager
  - Objectives
  - Technical Approach and Results
  - References
- ◇ Signalling Network Performance
  - Objectives
  - Approach
  - Results
  - References
- ◆ Dedicated Short-Range Communications
  - ◇ Standardization of Dedicated Short-Range Communications
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ VASCO: VALidation of Dedicated Short-Range COmmunications
    - Objectives
    - Technical Approach
    - Expected Results
    - References
  - ◇ Performance Evaluation of Dedicated Short-Range Communication (DSRC) Systems
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Conformance & Interoperability Testing of Dedicated Short-Range Communication (DSRC) Systems
    - Objectives
    - Technical Approach for Test system configuration
    - Expected Results
    - References
- ◆ Network Design
  - ◇ Topological Network Design Tool
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Topological Network Design Algorithms
    - Objectives
    - Technical Approach
    - Results

## ComNets Annual Report 1996

- References
- ◇ Transport Network Simulation Tool
  - Objectives
  - Technical Approach
  - Results
  - References
- ◆ Satellite Communications
  - ◇ SAINT - Satellite Integration Into The Future Mobile Network
    - Introduction
    - Objectives
    - Technical Approach and Results
  - ◇ Traffic Capacity Optimisation of Integrated Mobile Satellite Systems
    - Introduction
    - Commercial Impacts
    - Objectives
    - Technical Approach
    - Key Results
    - Future work
    - References
  - ◇ System Specification and Analysis
    - Objectives
    - Integrated Communication Networks
    - Conclusion
    - References
  - ◇ COST 255 - Radiowave Propagation Modelling for New SatCom Services at Ku-band and above
    - Introduction
    - Objectives
    - Communication Networks' Contribution to COST 255
    - Management of COST 255
  - ◇ ACTS INSURED - Integrated Satellite-UMTS Real Environment Demonstrator
    - Introduction
    - Objectives
    - Reference Models and Demonstrator
    - Services
    - Trials
- ◆ DECT
  - ◇ DECT - Suitability for PCS- and WLL-Applications
    - Introduction
    - Objectives
    - Technical Approach
    - Results
    - References
- ◆ ATM
  - ◇ THESEUS - ATM for European Stock Exchanges
    - Objectives
    - Technical Approach
    - Expected Impact / Results
  - ◇ Radio Metropolitan Area Network (RMAN)
    - Objectives
    - Technical Approach

## ComNets Annual Report 1996

- Results
- References
- ◆ Wireless ATM Systems
  - ◇ Objectives
  - ◇ Application specific characteristics of the W-ATM System
    - Cellular Radio ATM Networks
    - Wireless ATM for Residentials
    - Point-to-Multipoint ATM Radio in the Local Loop System
    - Wireless ATM LAN
  - ◇ References
  - ◇ Mobile Broadband System
    - Objectives
    - Technical Approach
    - Results
  - ◇ Medium Access Control Protocol for an ATM Air Interface
    - Objectives
    - Technical Approach
    - The DSA++ MAC Protocol
    - Transmission of capacity requests
    - Performance evaluation
    - References
  - ◇ Quality of Service Control at an ATM Air Interface
    - Objectives
    - Technical Approach
    - Performance evaluation
    - References
  - ◇ Logical Link Control with an Automatic Repeat Request Protocol at an ATM Air Interface
    - Objectives
    - Technical Approach
    - Performance evaluation
    - References
  - ◇ 60 GHz Propagation Modelling
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ Performance evaluation for network handover
    - Objectives
    - Technical Approach
    - Performance Analysis
    - Results
    - References
  - ◇ Directed Antennas in the Mobile Broadband System
    - Objectives
    - Technical Approach
    - Performance Analysis
    - Results
    - Conclusions and future work
    - References
  - ◇ Location Management for Cellular Radio Networks

- Objectives
- Technical approach
- Results
- ◆ TETRA
  - ◇ TETRIS - A simulation tool for TETRA systems
    - Objectives
    - Technical Approach
    - Results
    - References
- ◆ HIPERLAN - High Performance Radio LAN
  - ◇ Introduction
  - ◇ Objectives
  - ◇ Technical Approach
  - ◇ Results
- ◆ Infrared Communications
  - ◇ Introduction
  - ◇ Advantages of Infrared
  - ◇ Types of Links in Infrared
  - ◇ Infrared in the Network
- ◆ Simulation and Performance Evaluation
  - ◇ The RESTART/LRE-Method for Rare Event Simulation
    - Objectives
    - Technical Approach
    - Results
    - References
  - ◇ A new Statistical Method for deriving Expectation Parameters from Non-Correlated Discrete Random Sequences
    - Objectives
    - Theoretical Approach
    - Results
  - ◇ Workshop Summary:  
Basic Problems of Simulation Techniques
  - ◇ METWERK - Development of New Methods and Tools for Simulation, Analysis, and Synthesis of Complex Communication Systems
    - Objectives
    - Technical Approach
    - Conclusions
- ◆ Tools and Info Systems
  - ◇ Computer Network
    - Introduction
    - Hardware
    - Software
    - Network Connectivity
    - Services
  - ◇ COMNETS Information Systems
    - Available Information Systems
    - Queueing Literature Database
    - COMNETS Library
    - COMNETS C++ Class Library
    - Network Addresses
  - ◇ CNCL - Communication Networks Class Library

## ComNets Annual Report 1996

- - [Objectives](#)
  - [Technical Approach](#)
  - [Results](#)
  - [Availability](#)
  - [References](#)
  - ◇ [SDL2CNCL - A C++ Code Generator](#)
    - [Objectives](#)
    - [Technical Approach](#)
    - [Results](#)
    - [References](#)
  - ◇ [Propagation prediction for outdoor DECT-systems](#)
    - [Objectives](#)
    - [Technical Approach](#)
    - [Results](#)
  - ◇ [Graphical Interactive Result Tool \(GIST\)](#)
    - [Objectives](#)
    - [Technical Approach](#)
    - [Results](#)
  - ◇ [MoSSS - Mobile Satellite System Simulator](#)
    - [Introduction](#)
